

# IFRAT IKHTEAR UDDIN

Phone: 01787161449

Email: ifrat.ikhtear@northsouth.edu | GitHub: [github.com/ifratmitul](https://github.com/ifratmitul)

I'm a very detail-oriented and punctual person. Love developing software using frameworks like React, .NET. I like working on both front-end and back-end side of the software. Currently looking for a job where I will be able to contribute with both my leadership and technical skills.

## EXPERIENCE

JULY 2019 – OCTOBER 2019

**TECHNICAL DOCUMENTATION SPECIALIST**, RAPPLES ENTERTAINMENTS LIMITED [PART-TIME]

As a technical documentation specialist one of my responsibility was to prepare documentation of system architecture, APIs and variables used in different part of the project, so that Front-end, Back-end & ML engineers can work in harmony with the defined APIs and Variables. Another responsibility was to prepare documentation of clients about how we are designing the system as per their requirements and also about the progress of the project.

## EDUCATION

**HIGHER SECONDARY CERTIFICATE (HSC)**, DHAKA CITY COLLEGE

2012-2014

Grade: GPA 5.00 out of 5.00.

- PHP
- Python
- HTML
- CSS
- Java
- Team Management

## PUBLICATIONS

Ifrat Ikhtear Uddin, ASM Nawroz Jahan, MD. Nasim Mahmud Rone, Dr. Nova Ahmed (5-7 June 2020). A low-cost Boat Distress Alert & Safety System. 2020 IEEE Region 10 Symposium (TENSYP), Dhaka, Bangladesh [Awaiting Indexing]

## PROJECTS

These are few of my projects, Please, visit my [GitHub](#) to see more of my works.

- **Hotel Booking Website UI using React**

A complete hotel booking website UI was developed using REACT with various API integration like contentful API to show dynamic data in the UI

- **Movie Renting Web App using .NET MVC**

It's an e-commerce website where user can rent different movie from the collection. Admin can add or delete movies from database. Different 3<sup>rd</sup> Party API like DataTables were used to show Database data to the front-end side of the projects.

- **Online Classroom Web App using Django**

It's a virtual online classroom experience where student join a classroom using a unique key which teacher assigns while creating the class room. Teacher can post announcement, files and student can comment as well. Django, HTML, CSS, JavaScript, Bootstrap were used to develop this web application.

- **Tourism Package Buying E-Commerce Web App using PHP**

This web application is a full e-commerce website where user can buy different tour package. Sandbox Paypal payment method was implemented in this project. PHP, Ajax, MySQL DB, HTML, CSS, JavaScript were used to develop this project.
