

Ifrat Ikhtear Uddin

I'm a very detail-oriented, determined, energetic, and punctual person. I have an entrepreneurial mindset when it comes to time, I would rather be early than late. Love developing software, I like working on both front-end and back-end side of the software. Currently looking for an entry level job where I will be able to learn and contribute with both my leadership and technical skills.

WORK EXPERIENCE

Technical Documentation Specialist Rapples Entertainment Limited

07/2019 – 09/2019

Dhaka, Bangladesh

IT/Software development company

Tasks:

- One of my responsibility was to prepare documentation of system architecture, APIs, variables used in different parts of the project, so that Front-end, Back-end & ML engineers can work in harmony with the defined APIs and Variables.
- Another responsibility was to prepare documentation for clients about how we are designing the system as per their requirements and also about the progress of the project.

PERSONAL PROJECTS

Hotel Booking Website UI using REACT (03/2020)

- A complete hotel booking website UI were developed using REACT where i used contentful in order to show dynamic data in the UI

NextDoor Web Application using Django

- Its a virtual online classroom experience where student join a classroom using a unique key which teacher assigns while creating the class room. Teacher can post announcement, files and student can comment as well. Django, HTML, CSS, JavaScript, Bootstrap were used to develop this web application

Traveling Company (E-commerce) Web App

- This web application is a full e-commerce website where user can buy different tour package. Sandbox Paypal payment method was implemented in this project. PHP, Ajax, MySQL DB, HTML, CSS, JavaScript were used to develop this project.

Boat Distress Alert System (09/2019)

- Its hardware related project, its a emergency communication device for boat. Whenever boat is in distress this device can contact authority with boats location for help. C++, Arduino UNO, GPS, GSM, Solar technology were used in this project. A Paper has been published on this project on IEEE TENSYP2020, Dhaka conference
